

## Missouri's Businesses Support Clean Slate

Clean Slate is good for businesses, good for families, and good for communities. We believe Clean Slate is key to rebuilding Missouri's workforce and driving economic growth. Clean Slate will give employers the opportunity to recruit from a diverse and underutilized talent pool, while making Missouri a safer and more prosperous place to live and work. By helping to pass automatic record sealing, businesses across the state can give hard-working individuals the chance to meaningfully contribute to our economy. Clean Slate is a common-sense solution to close the justice gap — and get Missouri back to work.

"Right now, hundreds of Missouri businesses are facing a dearth of options as they seek the talent they need to address workforce shortages. States across the country are seeing the workforce benefits of passing Clean Slate bills. To keep Missouri competitive, we should be next. The Kansas City Chamber and our members believe it is time for the legislature to support our businesses and our workforce growth by passing Clean Slate."

President & CEO  
Greater Kansas City Chamber  
of Commerce*

"Across Missouri, small business owners like myself are still trying to fill a huge number of open jobs, even with record low unemployment. To strengthen our economy and bolster our growth, we need to expand the talent pool. Clean Slate will do just that. This bill is a common-sense solution that will keep our state competitive and make Missouri a better place to live, work, and do business."
